HOT DATE IF IM A GIRL THAT LOVES GIRLS :(((

I like this game a lot, but when I'm playing this game the game stops working and then I need to play game again. SAD. GIVE MY MONEY.. this game is not fullscrin and dis game is idiot game!. If i had the Option, between Suicide and Play That for 5 Hours...

i would definitely choose Suicide.. I've always enjoyed this game since I was younger just due to the simplicity of it, in addition to it relating to my special interest, however, I'm very much so disappointed by how buggy it still seems to be. From randomly closing the game (often enough to where I've had to start saving multiple times a day just in case), to permitting me to follow through with the wedding for Kate's storyline, it's exceedinly frustrating, and since it's been years since I've played I can't recall if I've ever found a way past that.

While I may have certainly enjoyed this game once before, re-experiencing these flaws is proving this to have been a waste of resources.
